

Kaiser Permanente Napa-Solano 2022 Community Health Snapshot

Serving communities around our Vacaville and Vallejo medical facilities.

Improving the health of our communities

Our work is informed continually by a comprehensive assessment of community health needs, and our grantmaking focuses on making the greatest impact. We're proud to support local nonprofits and community partners meeting the critical health needs of underserved populations. Together, we're creating healthier and more equitable communities.

In 2022, Kaiser Permanente provided more than \$1.5 million in charitable contributions to address community health priorities in our Napa-Solano communities. Read on for examples of our work.

Improving conditions for health and equity

Because good health begins where people live, we worked to improve factors affecting health in our communities, such as access to safe, stable housing, and affordable nutritious food.

For example, our 2-year, \$200,000 grant to Caminar supported Resource Connect Solano, a system to connect people who are experiencing or at-risk of homelessness with housing and supportive services. Our funding expanded efforts to prevent homelessness by providing rental assistance, housing deposits, application fees, and case management.

Strengthening the health care safety net

We partnered with safety-net hospitals and community health centers to improve care quality for low-income, Medi-Cal, and uninsured patients. Kaiser Permanente clinicians also donated their time and expertise to support these patients.

Our \$50,000 grant to OLE Health supported its Care Coordination program and increased the number of low-income patients it served in Napa and Solano counties. The program provides culturally informed primary care and connects patients directly with community-based organizations to meet their specific needs.

Supporting economic opportunities to change lives

Financial health is fundamental to people's ability to maintain overall health. We supported organizations that work with underserved populations to promote college and career readiness, quality jobs, and diverse small business growth.

One example is our \$56,000 grant to the Boys & Girls Club of Napa Valley that supported the Ready, Set, Work! Program. The program provided high school students academic advising, career exploration, skill development workshops, work experience, and mentorship.

Community health priorities

As part of our commitment to improve health and health equity in our community, every 3 years we conduct a rigorous and collaborative community health needs assessment. For 2022, Kaiser Permanente identified the following significant health priorities in our Napa-Solano communities.

Mental and behavioral health

Access to care

Income and employment

Housing and homelessness
