

Serving communities around our San Rafael and Santa Rosa medical facilities.

### Community Health Priorities

<p><b>Access to Care and Coverage</b></p> <p>High quality, culturally and linguistically appropriate health services in coordinated delivery systems.</p>	<p><b>Economic Security</b></p> <p>All community members are economically secure in order to thrive.</p>	<p><b>Educational Attainment</b></p> <p>Youth thrive in school and are prepared for college, career, and community success.</p>
<p><b>Housing and Homelessness</b></p> <p>All community members have access to quality, affordable, and stable housing.</p>	<p><b>Mental Health and Wellness</b></p> <p>Social and emotional health and well-being and access to high-quality behavioral health care services when needed.</p>	

### Community Health Highlights

We are committed to using our resources, reach, and partnerships with other organizations to help build healthier and more equitable communities.

Kaiser Permanente addressed housing and homelessness on many levels in the communities we serve. We expedited affordable housing development; advanced policies that prioritized vulnerable populations; and expanded access to shelters and permanent, supportive housing.

In partnership with many community agencies across Sonoma County, we supported case management to connect those most impacted by the North Bay fires with financial, legal, housing, and mental health services.

Kaiser Permanente provided grant support to community-based organizations and the City of Santa Rosa to engage communities of color to ensure equitable access to community resources, transportation, housing, environmentally safe land use, and a just post-fire recovery.

### By the Numbers

**\$111M**

total community investment
